

Stolen and Otherwise

President Roosevelt has announced that when the postoffice investigation is closed he will write the history of it himself.

Hon. M. R. Otero and son Edward were here to spend the Fourth with relatives and friends they have returned to Santa Fe. —Citizen.

Secretary J. W. Reynolds has prepared and published in neat pamphlet form a complete official register of New Mexico.

The earth is now girdled by a submarine cable and it is estimated that a message can circle the globe in 40 seconds of time.

It is rather warm these June days and hence it is not the proper time to become too angry at the appointment of Judge Clement C. Smith to be associate justice of the territory of New Mexico.

Nevada, the least populous state in the Union, has decided to vote \$125,000 to an exhibit at the world's fair, of which \$70,000 will be set apart for a display of minerals.

New Mexico is having a good steady solid growth. There is on boom anywhere in the territory, but advancement and progress are the order of the day.

Every part of the country has now indulged in the pastime of negro burning except the far west, which leads the Kansas City Journal to remark that the "wild and woolly" seems really to be our most civilized section.

A great Bend, Kansas, little girl, asked to repeat the Twenty-third psalm, started off bravely: "The Lord is my shepherd—and he lost his sheep, and don't know where to find them."

A roll of bills stopped a bullet which struck a Chicago man in the breast, thus saving his life. Yet there are reckless people who go right ahead day after day without a roll of bills on their person.

Irrigation is in the air. It is the great issue before the people today. To the people of the west the tariff, free silver and the other old staple issues, dwindle into insignificance beside this question of reclaiming arid lands.

Juarez, the city across the Rio Grande from El Paso, has a new mayor who is going to clean out the town from top to bottom. He will close all saloons at midnight, put an end to all kind of grafting, run out the bunco men, increase the police force, sprinkle the streets, erect a sanitary slaughter house and market and make a model town.

The democrats are discussing the advisability of adopting "turn the rascals out," for a campaign slogan next year. But by the time the strenuous boot of the administration has been applied a few more times there will be no rascals left to turn out.

The British South Africa company has invited Brooker Washington to spend six months in Rhodesia, at its expense, to study the black natives and to devise schemes for their civilization. The invitation is a compliment to Washington, but it is not seductive enough to tempt him to abandon, even temporarily, the work he is engaged in among his own people.

Ex-Governor Prince, of Santa Fe was elected vice president of the American congress of tuberculosis at the recent meeting of that organization, in New York, and steps were taken to make preparations for a great meeting of the congress at St. Louis during the fair—and Governor Prince can be relied upon to set forth the advantages of New Mexico at that time, in the proper light.

The use of electricity in firing blasts in mines, is becoming quite universal among the more progressive elements in mining. Numerous mines have already installed the required apparatus, and reports are to the effect that it is surprising that this was not done long ago. The main features of electric blasting are safety to the mineral and results accomplished. Seldom does a charge fail to fire.

The Central labor union's Fourth of July celebration is over and a thing of the past. It was a very successful affair and was managed in a first class manner. What more can be said?

The union people are to be congratulated for giving such an entertainment for the people of this territory. —Albuquerque Citizen.

Catarrh of the Stomach.

When the stomach is over loaded; when food is taken into it that fails to digest; it decays and inflames the mucous membrane, exposing the nerves and causing the nerves to secrete mucus, instead of the natural juices of digestion. This is called catarrh of the stomach. For years I suffered with catarrh of the stomach, caused by indigestion. Doctors and medicine failed to benefit me until I used Kodol Dyspepy Cure;

Three hundred and fifty square miles of territory devoted to the culture of sisal and henequin fiber supplies the twine to bind the wheat crop of the world. This twine is used in the United States, Argentine and Russia. United States furnishes all the binders which use the twine.

A Surgical Operation

is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Hear is one of them: I suffered from bleeding and protruding piles for 20 years. Was treated by different specialists and many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me 18 months ago and I have not had a touch of the piles since. —H. A. Tidale, Summerton, S. C. For Blind, Bleeding, Itching and Protruding piles no remedy equals DeWitt's Witch Hazel Salve. Sold by J. P. Byron & Son.

The mineral production of Mexico for the fiscal year ending June 30, 1902, was \$112,000,000. The first six months of the present fiscal the production has been \$61,000,000. The increase in six months in the production of gold was \$1,000,000, in copper, \$92,178 and in lead \$400,000.

A Brooklyn brute who has beaten his blind wife one hundred times, says the World, has received now and then for this offence sentences varying from ten to thirty days. Almost as severe a punishment as though he had been detected in the crime of selling groceries on Sunday.

Celebration Casualties.

Three score killed and upward of 4,000 persons seriously injured in the Fourth of July celebrations is certainly a sum total large enough to give Uncle Sam a more severe "day after" feeling than usual.

Last year the killed numbered only 21 and the reported injured only a trifle over 2,000. The astonishing gain in this year's total of serious accidents does not indicate that the nation is twice as patriotic as last year, but that the percentage of unwise people who think they can handle fire works has largely increased. Reports show that most of the killed and injured are children, and the list of fatalities this year should convince parents that greater restrictions must be placed on young America. If there are parents unwise enough to let irresponsible children handle the deadly toy pistols and the not less deadly canon firecracker, the law should step in and prevent the sale of these implements of carnage.

Who doubts it? Certainly not the man on the train. He needs and should demand food that is properly cooked and daintily served. The Santa Fe provides the best of meals for those who journey. Its table d'hote service, 75 cents, is deservedly popular. Trains without dining cars reach meal stations at seasonable hours.
